## THE NEUROLOGICAL DISCHARGE TEAM

Information for patients

The Neurology Discharge Team (NDT) is a small team of community Occupational Therapists and a Rehabilitation Assistant. We are part of the Community Neurological Rehabilitation Service based at St Mary's Hospital.

If you have had had a traumatic brain injury we are here to support your move back home. We can provide input to you if you have a Leeds GP and are over the age of 16 (and have left high school).

We will work closely with your hospital therapists to plan a safe and successful discharge, providing rehabilitation, advice and guidance in the early days as you adjust to being back home.

We aim to meet you on the ward before you go home and then we will visit you within 48 working hours of your discharge.

We will work with you and your close family/carers/ relatives for up to 8 weeks once you are home, working towards goals that are meaningful to you. We will also provide education to you and your family/support network to help you come to terms with your new traumatic brain injury.

The service is available Monday to Friday between the hours of 08:00 and 16:00.

We have close links with other local services and will support you to access them if needed. At the end of our input we can also refer to other teams so that you can work towards your longer term goals.
