

Diabetes service

We see people with complicated Type II diabetes to offer them and their GP support in dealing with diabetes and its complications.

The service is based in a number of health centers across Leeds so patients can access care close to their home.

Purpose of processing

Leeds Community Healthcare (LCH) through the diabetes work with patients to come up with a plan to help them manage their diabetes. This requires the processing of patient data. The reasons for processing patient data are:

- Requests by commissioners - to investigate alternatives on S1
- To be able to effectively provide treatment to the patient
- To maintain an accurate clinical record
- Referrals

Source of data:

- Other healthcare professionals
- Directly from the patient
- SystemOne (LCH's patient management system)

Categories of recipient

- Health professional
- Diabetes service

Categories of Personal Data

- Patient Name
- NHS Number
- Address
- DOB
- Telephone Number
- Clinical data
- Medical history

Legal basis of processing

For GDPR purposes Leeds community healthcare's lawful basis for processing is Article 6(1)e '...exercise of official authority...' and Article 6(1)(b) – '...for the performance of a contract to which the data subject is party...' and also Article 6(1)(c) – where processing is necessary for compliance with a legal obligation to which the controller is subject.

For the processing of special categories (health) data the basis is Article 9(2)(h) – '...health or social care...'. Where we process special categories data for employment or safeguarding

purposes the condition is Article 9(2)(b) – processing is necessary for the purposes of carrying out the obligations and exercising specific rights of the controller or of the data subject in the field of employment and social security and social protection law...
