

SpineFit+

SpineFit+ is a service for adults (18 years or over) who have been living with pain for more than 6 months

Purpose of processing

Leeds Community Healthcare through the SpineFit+ service work to help people manage persistent or chronic pain, providing support and advice to help improve your quality of life. Persistent pain is often referred to as chronic pain and both terms have the same meaning. This requires the processing of patient data. The reasons for processing patient data are:

- Referrals
- Letters from consultant
- Maintain accurate clinical records
- To be able to effectively provide treatment to the patient
- Information update from other health professional involved in patient's care

Source of data:

- SystemOne (LCH's patient management system)
- professionals
- Healthcare professionals
- Parent
- Consultants
- GP

Categories of recipient

- MSK team
- SpineFit+ team
- Pain team
- Patient

Categories of Personal Data

- Patient name
- NHS Number
- Address
- Date of birth
- Clinical data
- Telephone Number

Legal basis of processing

For GDPR purposes Leeds community healthcare's lawful basis for processing is Article 6(1)e '...exercise of official authority...' and Article 6(1)(b) – '...for the performance of a contract to which the data subject is party...' and also Article 6(1)(c) – where processing is necessary for compliance with a legal obligation to which the controller is subject.

For the processing of special categories (health) data the basis is Article 9(2)(h) – ‘...health or social care...’. Where we process special categories data for employment or safeguarding purposes the condition is Article 9(2)(b) – processing is necessary for the purposes of carrying out the obligations and exercising specific rights of the controller or of the data subject in the field of employment and social security and social protection law...
